

# Step 1: What have we already achieved?

**Step 1 task:**  
Write down any climate/ sustainability-related actions already taking place in your education setting. Try to link them to the four pillars of the climate action plan.

**Step 1 goal:**  
Capture and celebrate climate action that has already taken place in your education setting.

**Suggestion:**  
If you have found lots of examples of actions, try noting down how each action benefits your school.

**Preparation for step 1 task:**  
Discover what sustainability-related actions your school has already been doing, e.g.

- Look around your school site
- Ask other members of staff
- Read any documentation from previous programmes your school has been a part of e.g. Eco-Schools

**Filling in your CAP template:**  
Fill in the first section of the climate action plan template: ‘What have we already achieved?’

**Examples:**  
Biodiversity

- Taking care of the local environment
- Increasing biodiversity on site
- Air quality

Climate education

- Green skills in the school community
- Curriculum

Decarbonisation

- Energy efficiency
- Food and drinks
- Transport to and from school
- Recycling and purchases

Adaptation and resilience

- Managing overheating or flooding on site
