# School Governance Traded Service

Effective school governance is fundamental in providing strategic direction, oversight and assurance for the school community, its performance and impacts on the outcomes for our children and young people. Good governance has become more complex and has greater accountability resulting in a greater need for governance support.

Governor Services  
H&F Council

## School Governance Professional (clerking)

## External Review of Governance

An external review of governance looks at how well your school's governing body is working. This may be in relation to an Ofsted inspection or as part of the boards own self-evaluation process.

This process involves meetings, conducting a self-review session with the board, and reporting on the strengths and areas for development, with an action plan produced for the board to take forward.

## Governor Training & Development
