

# GENERATION WILD

## AVA'S DESTINY

**FREE** nature-connection programme for primary schools in economically disadvantaged areas\*

### It all starts with a story

The Generation Wild programme follows the story of Ava, a mysterious part-bird, part-human character.

Children are introduced to her story in school, meet her at the wetland centre and follow her on a magical adventure back at school and at home.

Can your children help Ava to re-connect humans and nature whilst unlocking some of nature's wildest secrets along the way?

Turn over to find out more.

**GENERATION**WILD

AVA'S DESTINY

\*eligibility is based on % FSM data

## You will get...

- A free school visit for your class (suitable for years 1-6) to one of our WWT wetland centres (including free transport)
- A free family visit for every child in your class and their family
- School and family access to a website following Ava's journey and containing over 50 different nature-connection activities
- Curriculum resource packs with activities linking to the project
- Specially-designed certificates and badges for your pupils
- A chance to win the construction of a mini-wetland in your school grounds

## Quotes from primary school teachers:

"Perfect for getting children back into nature."

"We've had one of the easiest, happiest and most enjoyable trips ever."

"This was one of the best trips I have been on. The children were engaged in their learning from the minute we arrived to the minute we left."
