

Storytelling, Science and Sustainability in Early Years Education

FREE webinar

Wednesday 9th November 2022 @ 4:00 pm - 5:00 pm GMT

For: Early Years educators, parents, artists and storytellers

Funded by: Royal Astronomical Society

Hosted by: Yorkshire Festival of Story

Join international scientist-storyteller Cassandra Wye for this practical demonstration of how we can use storytelling as a springboard for exploring science and sustainability in EYFS education.

Discover how you can use a story to spark children's curiosity and sense of wonder — and to ignite their capacity to care for our beautiful world.

Alongside excerpts from *Fly Me to the Moon* (a full version of this story is available on Settle Stories' website) Cassandra will be sharing stories and science resources from her Arts Council funded website wesharethesamemoon.org.

So, step outside of the classroom and take a trip to the moon and back with us!
Places are FREE but numbers limited so please book in advance

To book:
