

SLCN Early Identification, Early Intervention.....

**H&F Maintained EYFS
Settings /School**

Early Years settings not only play an important role in children's education, they also act as a key link to parents/caregivers and families. Enabling early years practitioners to identify and address communication difficulties is therefore crucial. However, many early years educators have identified that they need more guidance when it comes to SLCN.

As part of a commitment to addressing the needs of **SEN Support** pupils, INSPIRE JCT are delivering free Training - **'Early Identification and Early Intervention'** for pupils with **Speech, Language & Communication Needs**.

The online training is in **2 parts** and following completion, settings/schools will receive the **Early Years iCAN Progression Tools**, funded by LA to use with a Graduated Approach. Training delivered and fully supported with follow up by the INSPIRE JCT SLCN Specialists.

Settings/Schools will need **at least TWO** members of staff attend both trainings. One staff member as designated **Lead Practitioner** who is identified to monitor and evaluate the program for example this could be a Nursery Manager, Phase Leader, Literacy Lead, Assessment Lead or SENCo/Inclusion Lead

**Don't miss out....
book your sessions NOW**

Settings that have completed training are already using the Tools and benefiting from INSPIRE SLCN Specialist Interventions

Book one session of each PART
